for an open-door policy in China and restated its determination to recognize no concessions which may be wrung from China by force.

This stand was revealed in a letter from Secretary Stimson to Senator Borah. It was an agreed letter approved by President Hoover. Stimson and Borah went over it last night. Without attempting to judge as between China and Japan in their dispute, Stimson said frankly that the present situation "can not under any circumstances, be reconciled with the obligations" of the nine-power treaty guaranteeing China's sovereignty and the Kellogg-Briand anti-war treaty. Stimson said, too, that the nine-power treaty was "interrelated and interdependent" with the Washington naval treaty which limited the battleship strength of the principal powers.

Day's Developments In Sino-Jap Conflict

By the Associated Press.

By the Associated Press.

Battle between China and Japan flared to a new peak of fury today on the Kiangwan front of Shanghai with neither side yielding an inch.

Secretary of State Stimson declared in a sweeping reaffirmation of the United States' policy yesterday that the whole fabric of international understanding in the fareast is threatened by the hostilities between Japan and China.

The secretary referred specifically to the balance of naval power agreed on in 1921-1922, and this reference, coming on the heels of action by the senate naval committee for a bigger navy, caused widespread comment.

Colonel Stimson's declaration, set forth in an open letter to Senator Borah, chalman of the foreign relations committee, reiterated the doctrine of the "open door" in China and challenged Japan's stand for revision of the nine-power treaty.

Meanwhile, every indication in Shanghai pointed to an offensive by the Chinese in an effort to overwhelm the enemy before two additional army divisions of reinforcements arrived from Japan.

President Asks One-Man Power To Reorganize Government.

WASHINGTON, Feb. 24.—(P)—President Hoover today struck at congressional opposition to his suggestions that he be given authority to reorganize the federal government with an eye to reduced expenditures. In a carefully worded statement, the president declared himself "delighted" that congress had decided to move toward government consolidation. Simultaneously, however, he charged that congress had failed repeatedly over the last 25 years to fulfill efforts to this end and asked that power to act be centered in one man.

LEGION DRIVE,LAUDED BY ROBERT WOODRUFF

In commending the American Legion's nation-wide campaign to distribute available work among the greatest possible number of workers, President Robert W. Woodruff, of the Coca-Cola Company, Wednesday night stated that his company has exceeded the quota of a 10 per cent increase in personnel, which every business has been asked to put into effect.

The Coca-Cola Company has 13 per cent more employes than it had at the close of 1929 he said. A policy of retaining all employes and of increasing the number wherever possible, from time to time, was decided upon in 1929.

"Distribution of available work to "Distribution of available work to the greatest number of workers is the big objective, as I see it, in the joint campaign of the American Legion, the Legion Auxiliary, the American Federation of Labor and the Associa-tion of National Advertisers, seeking to put a million men back to work," Mr. Woodruff stated.

"The principle is sound and should be applied in actual practice by every business in so far as it is practical to do so without destroying productive efficiency. The effort will prove abortive unless every business co-operates. A minority cannot achieve success in this undertaking.

"Unemployment is a fact today which every businessman must face and I know of no plan which promises so much in actual results as the proposal that we shall spread work to include the greatest number. This not only means the substituting of work for charity, which is a sound American ideal, but it means increasing the purchasing power of the masses, which cannot help but speed improvement in economic conditions generally." When you buy

ASPIRIN

you are sure of getting the utmost in purity and quality

To SET a new high standard in the manufacture of chemical and pharmaceutical products—to make products of greater purity than had yet been known-that was the ideal of Dr. E. R. Squibb when, in 1858, he built his modest laboratory at the request of leading physicians.

For 74 years the House of Squibb has adhered to the ideal of the Priceless Ingredient-the Honor and Integrity of the Maker. That ideal has won world-wide recognition for the supremacy of Squibb Products. Today, the name Squibb on any

household or professional product is recognized as positive assurance of true purity and reliability.

Through persistent research

and the application of better manufacturing methods, improved tests and controls, Squibb Products continue to be the best that scientific skill and the most painstaking care can produce.

And so you will find Squibb Aspirin is of the highest purity-safe, dependable and effective. It has the advantage of not crumbling in the package or leaving bitter-tasting particles on the tongue. Although firmly compressed, Squibb Aspirin Tablets disintegrate quickly in water or when swallowed whole.

When your physician recommends aspirin, ask the druggist for Squibb Aspirin. You can buy it in handy metal boxes of 12 or 24 tablets, and ip bottles of 50 or 100. Look for the name before you buy. Copyright 1932 by E. R. Squibb & Sons

Head of Auburn Auto Flays 'Orgy' of Federal Spending

Elimination of Unnecessary Bureaus and Commissions Urged by E. L. Cord as Means of Cutting Expenses.

BY E. L. CORD, pany and Cord Corporation, Newspaper Alliance, Inc.)

CHICAGO, Feb. 24.—The mad orgy government spending, the terrifying acreases in taxes, the appalling sitations to which our federal, state and municipal governments have drift-ed, the chaos which is threatening our whole governmental structure are

These are strong terms, but no one who is at all familiar with conditions in many of our cities where school teachers have not been paid for months, where the municipalities for months, where the municipalities face bankruptcy, and where the army of tax gatherers and spenders number as high as 20 per cent of the total working population can deny the seriousness of this situation.

Most of us in the past have been content with conversation about what ought to be done. We have seen this rapid increase in taxation. We have had our fears of the outcome of the democratic leader, said "that the principle of equal opportunity for the commerce and industry of all nations within the territory of China running bonds. Yet, as a whole, we have done little.

Figures will tell the story. The United States government had a deficit of over \$900,000.000 for the fiscal year ended June 30, 1931, and for the current fiscal year the deficit is estimated at more than \$2,000,000,000. This is the result of years of unwise spending.

Within the last eight years governmental activities have increased 100 per cent, most of which is not only unwarranted by the needs of the people but is in fields entirely outside the proper functions of government. Paternalistic and regulatory activities have been expanded until the annual cost of these undertakings is estimated. cost of these undertakings is estimated at \$870,000,000. This is almost equal to the deficit incurred by the federal government during the 1931 fiscal

At a time when house tions and individuals have adjusted their financial programs to meet new and more strenuous conditions, govnd more strenuous conditions, government bodies have continued expen-litures unabated. In the peak year or business, 1928, federal, state and ocal governments in this country cost nearly \$12,300,000,000.

Last year that total was approximately \$14,000,000,000,00 and more than \$2,500,000,000 and more than one-fifth of the national income

It is necessary to cite only a few figures to reveal an amazing growth in government expenses within the last few years. The board of tax appeals in 1928 was a \$350,000 body. The civil service commission, \$1,000,000; now \$1,500,000. The employes' compensation commission was \$2,250,000; now \$4,500,000. The federal board of vocational education was \$5,500.000. was \$5,500,-000; now a \$10,000,000 body.

The federal farm board did not ist in 1925. Its administrative exmes today is \$1,500,000. That sum ses not include advances for the purexist in 1925.

POLICY ENUNCIATION

Senator Robinson, of Arkansas, the democratic leader, said "that the principle of equal opportunity for the commerce and industry of all nations within the territory of China running through the open door policy and the nine-power treaty has been violated or disregarded, does not justify abandonment of the principle or the substitution of new treaty arrangements giving any measure of advantage or benefit by reason of violation or disregard."

Senator Reed, a high-ranking republican from Pennsylvania, said he regarded the Stimson statement as an end of note-writing to China and Japan by the United States government. These burdens have fallen heavily on industry. It has been estimated that all the earnings of all railroads in the United States for the first four months of 1932 will be required to pay the railroad taxes for 1931. During 1930 the automobile industry accounted for more than \$1,000,000,000 in gasoline taxes, registration fees, personal property and municipal taxes—an increase of 23S per cent in 10 years.

WASHINGTON, Feb. 24.—(F)—
Following is the text of the letter sent by Secretary of State Stimson to Senator Borah enunciating the official attitude of the United States toward the conflict in the east:

My Dear Senator Borah:

You have asked my opinion whether, as has been sometimes recently suggested, present conditions in China have in any way indicated that the so-called nine-power treaty has become inapplicable or ineffective or rightly in need of modification, and if so, what I considered should be the policy of this government.

This treaty, as you of course know, forms the legal basis upon which now rests the "open door" policy towards China. That policy, enunciated by John Hay in 1899, brought to an end the struggle among various powers for so-called spheres of interest in China which was threatening the dismemberment of that empire.

Two Principles.

The treaty was thus a covenant of self-denial among the signatory powers in deliberate renunciation of any policy of aggression which might tend to interfer with that development. It was believed—and the whole history of the development of the "open door" policy reveals that faith—that only by such a process, under the protection of such an agreement, could the fullest interests not only of China but of all nations which have intercourse with her best be served.

The signatories of the nine-power treaty and of the Kellogg-Briand pact who are not parties to that conflict are not likely to see any reason for modifying the terms of those treaties. To them the real value of the faithful performance of the treaties has been brought sharply home by the perils and losses to which their nationals have been subjected in Shanghai.

Corporations, Subsidiaries May Continue To File Joint Returns.

WASHINGTON, Feb. 24.—(P)—
The house ways and means committee today reached its first decision on the administrative provisions of the new tax bill and agreed that one feature of the present law should remain unchanged.

changed.

This was the section authorizing corporations to file consolidated income tax returns for themselves and their subsidiary or affiliated companies. Two more administrative clauses remained to be written before the committee could vote upon the

They were proposals to repeal the provision allowing credits on foreign taxes paid by American enterprises and to modify the capital gains and loss tax of the existing revenue law.

Under the decision announced today is carried Chalenge Crism after a acting Chairman Crisp after a sed session of the committee, in-ests with subsidiaries will be perwould attend in dress uniform. Governmented to continue filing returns on joint profits for the corporate tax.

It was proposed to split them in order that subsidiaries showing profits would bear all the taxes while those without profit would pay none. Although not announcing the figures of the vote, the Georgia democrat said that it was bipartisan and substantial. In forming a bill to raise \$1,250.-000,000 to meet the prospective 1933 treasury deficit, the committee already has agreed on increased individual and corporate income and inheritance taxes and the levying of a gift tax. It is expected the final draft will be approved some time next week.

Bogus Bills and Coins Are Passed on Unwary Secret service agents at the federal building Wednesday issued a warning to the public to be on guard against a clever counterfeiter who has been operating in the city for

the past two weeks.

A white man about 35 years of age, 5 feet 7 inches tall, weighing 165 to 175 pounds, neatly dressed and styled as a "smooth talker." has been passing bogus \$10 and \$20 bills at smaller hotels and rooming houses. The bills are raised from \$2 bills with the aid of white paint. A number of newsboys also have been the victims of counterfeit passers, receiving spurious 25 and 50-cent pieces which are very dark and "off color," agents said.

Any Atlantan detecing a passer is asked to call the police and have an arrest made if possible.

CAPITOL VIEW HOST TO MASONS TONIGHT

Martial music by an army band and the brilliance of dress uniforms of officers will be the setting for a large gathering of Masons at 7 o'clock tonight, when Capitol View lodge, No. 640, meets to celebrate the George Washington bicentennial. More than 200 Masons of the master degree are expected to attend, according to I. L. O'Neal, worshipful master, who said that Adjutant General Charles Cox and his entire staff would attend in dress uniform. Governor Russell has been invited and will attend if possible, he said.

Music for the occasion will be furnished by the Twenty-second Infantry band and a degree team will present "The Master Builder," famous Masonie play. Grand Master Joe A. Moore will be the principal speaker.

Nunnally's has recognized that the giving of extra value was good business. At the same time, there has been no sacrifice of quality. Never in the history of the candy industry have you been offered such attractive boxes, so beautifully packed, and so many varieties of delicious homemade style candies at such reasonable prices as at present.

Nunnally's through its retail stores and through several thousand established agencies can fill your every want for fresh candy at from 40c to \$1.50 per pound. Absolutely pure candies for the children, fresh homemade candies for family use, and the finest package candies ever offered to the public for gift purposes at average reductions of from 15% to 40%.

Nunnally's prices are not high. You will be surprised at the value offered not only in Candy but at Nunnally's Soda Fountains and in Nunnally's Tea Rooms.

Your patronage is solicited based on extraordinary value and genuine quality. Every piece of Nunnally's candy and every article of merchandise sold in the Nunnally retail stores and through our dealers is guaranteed to be satisfactory to the retail purchaser.

Talmadge has been visited almost daily by supporters urging him to seek higher office. Delegations have asked him to run for governor. Other delegations seemed to prefer him in the senate. His mail, increasing in size as the opening of the campaign approaches, is fairly well divided.

At the same time, the agricultural commissioner has not, himself, definitely decided that his best opportunity for service is elsewhere. The bulk of his strength is with the farmers and his political advisers say that he is finding it difficult to surrender his farm portfolio unless convinced that he can render greater service elsewhere. In his regular bi-weekly contributions to The Southern Cultivator, a well-known farm paper, Talmadge has been advocating that the government he wrested from "big interests" and returned to the people. It is this consistent newspaper campaign which has prompted a number of his friends to predict that he has an eye fixed on a seat in the senate.

If he decides to run for the senate, or for governor, the race for commissioner of agriculture will be "wide open." Indications now, in such event, are that there will be at least half a

ATLANTA MATERIALS, LABOR TO GO INTO P. O.

Atlanta labor and materials, in so far as possible, will be used in the construction of the new Atlanta postoffice building, it was assured Wednesday by J. R. Pursell, secretary of the Great Lakes Construction Company, of Chicago. He is in the city to complete details for the construction of the \$3,000,000 superstructure. "We do not intend to import any labor," he declared. "Atlanta workmen will be used for every possible job, and we believe that practically all unskilled and skilled labor can be obtained here. All materials needed in the building which can be purchased here, and that the government does not specify are to be imported, will be purchased in Atlanta." Mr. Pursell arrived here Wednesday morning.

A BRIEF NOTE OF APPRECIATION TO THE PUBLISHER OF THIS NEWSPAPER

This advertisement has been printed without cost by the publisher of this great newspaper. It is a sincere patriotic contribution that merits public praise. Regardless of political beliefs or editorial opinion the Newspaper Publishers of America are doing their part to help win this fight.

Idle hands result from idle money. But active money is the leaven that spreads its influence through all walks of life and through all industries. Never in the history of America has a dollar bill in circulation meant so much to our national prosperity as it does today. Let's be done with "slacker" dollars. Let's make every dollar work-for ourselves and our country!

CAMPAIGN TO DRY CITY

In Fatal Dynamite Blast at Still by Early into Baxley for the past several months and it is so cheap that anyone with a thirst can quench it at a very small price.

Oue of the offenders appearing before the mayor Monday was a young man, Lloyd Deen, who resides in the Cobbtown section of the city, He was arraigned for disorderly conduct in offering to sell S. W. Davis a pint of liquor for 50 cents. Davis refused to buy the liquor which infuriated Deen and he set up a barage of brickbats at Davis, one of the bricks striking and knocking Davis' young son from the running board of his car. Deen was given 40 days on the streets of Baxley.

TECHNICALITY FREES

MACON, Ga., Feb. 24.—(P)—An Arson indictment against Gordon Bailey, former Macon hotel manager, was quashed in Bibb superior court by Judge Malcolm D. Jones this afternoon when a special jury returned a verdict in favor of a plea of former jeopardy filed by Bailey.

The mach first went on trial several months ago but was freed by a directed verdict when it was shown that the house he is alleged to have burned was located a few feet beyond the city line, while the indictment charged that the dwelling was "in the city of Macon."

CAMPAGN TO DRY CITY

MACON, Ga., Feb. 24.—Paderewski, the inimitable, the mighty monarch of the piano, played to a capacity audience in the beautiful municipal auditorium in Macon Wednesday evening, defying all pianists to claim his long time title of the world's greatest pianist.

BAXLEY, Ga., Feb. 24.—While one of the leading magazines is mailing out ballots to ascertain whether the majority of voters in America is wet or dry, Dr. H. C. McCrackin, mayor of Baxley, is determined that this little city must be dry. He called a special meeting of the city-council last night, uveiting Sheriff H. L. Padgett and R. M. Dunn, chairman of the county commissioners, and formulated plans for eradicating liquor from this city.

At mayor's court Monday morning six offenders of the prohibition law were given fines and sentences, and in each instance the mayor was very emphatic that if the offenders should again come before him he would give the limit of the law.

MACON, Ga., Feb. 24.—(P)—At an open meeting at the Bibb county courtflowes this morning the board or registrars formally declined to furnish a list of registered voters for the proposed democratic primary election scheduled for Marca 23. Unless court action is instituted and carried to a successful conclusion to force the board to provide a certified list of qualified voters, it appeared definite that the primary would be postponed until May at earliest.

Chairman E. P. Johnston, of the Bibb county democratic exective committee, announced that the committee did not desire to test the case in court, but that any candidate or other interested person would be permitted to bring mandamus proceedings in the name of the committee if he desired.

The couple had three small children, one a mere baby in arms. Attorneys for the condemned man announced that the verdict would be appealed.

Party Thus Would Doom Self to Destruction, Says Dry Leader.

ST. PETERSBURG, Fla., Feb. 24.

(P)—Mrs. Jesse W. Nicholson, of Washington, president of the National Woman's Democratic Law Enforcement League, warned the democratic party today it is "doomed to disruption" if it nominates a "wet as the presidential candidate."

Mrs. Nicholson spoke before the Anti-Saloon League of America, holding its fifth annual southern prohibition convention at the First Methodist church here.

Five men now mentioned for the democratic standard bearer are not acceptable to our women, Mrs. Nicholsons said, "and unless a new leadership arises the democratic party is doomed." She named these men as Alfred E. Smith, 1928 nominee; Governor Franklin D. Roosevelt, of New York; Governor Albert C. Ritchie, of Maryland; Senator James Hamilton Lewis, of Illinois, and Newton D. Maryland; Senator James Hamilton Lewis, of Illinois, and Newton D. Baker, secretary of war in the Wil-son cabinet.

son cabinet.

A charge that prohibition is not enforced, and cannot be enforced, was hurled into the morning session by J. N. Wilkinson, Toronto retired minister and lecturer of Canada and the United States. Immediately, it was answered by F. Scott McBride, general superintendent of the Anti-Saloon League; O. G. Christgau, convention manager; E. H. Cherrington, general secretary of the World League Against Alcholism; and Sam Fickel, of Westerville, Ohio, editor of the league's official publication, American Issue.

Wilkinson charged 90 per cent of the police of the United States are not in favor of the prohibition law. not in favor of the prohibition law.

Charging the association against the prohibition amendment is financed by "seven millionaires," Mrs. Nicholson said, "It would collapse if you took away the high salaries paid to its officers and propagandists."

CENSORSHIP INVOKED

AT JAPANESE CAPITAL
TOKYO, Feb. 24.—(P)—Censorship was invoked again today to cloak the movement of Japanese reinforcements to the Shanghai front.
Only meager accounts of military preparations appeared in a few newspapers, the government apparently taking the position that by controlling the news it might be possible to disguise the seriousness with which the Shanghai situation is viewed.
Earlier in the month, when two army divisions were moved to Shanghai after several thousand bluejackets had failed in their attempt to drive the Chinese out of Chapel, a similar censorship was invoked.
Official supervision of dispatches by foreign correspondents has taken

official supervision of dispatches by foreign correspondents has taken some odd forms. For example, a supervisor deleted part of an interview given to the Associated Press by Lieutenant General Sadao Araki, minister of war, who is one of the strongest and most responsible members of the government.

given to the Associated Press by Lieutenant General Sadao Araki, minister of war, has sone of the strongest and most responsible members of the government.

A few early editions of yesterday's evening papers printed brief reports of the cabinet decision to send more men to China. Those meager reports are about the only information most of the Japanese people have received. Although the cabinet decided to double the army force in Shanghai—raising it from 25,000 to 50,000—no details of troop movements and dispositions have been published.

Imminent changes in the scope of the military action at Shanghai have revived discussio. of candidates for commander in chief of the reinforced army. General Yoshinori Shirakawa, former minister of war, has frequently been mentioned for the post.

For the most part the Japanese people continue to support the government's military decisions and to approve the operations in Manchuria and at Shanghai, for there is a groweing realization of the risks involved in the campaign and it has produced a determination to see things through. Japanese patriotism is a strong

The Chinese warned foreign shipping away from the Japanese military base on the Whangpoo—a step that was taken as notification of their intention to stop with guns any attempt to land reinforcements.

Foreign consuls were asked by the Chinese to get their nationals out of all sections of Shanghai close to Hongkew which would become danger zones in the event of a Chinese drive.

Finally blocked in their effort to smash the center of the Chinese line at Kiangwan, the Japanese shifted their attack to the Chapei front, where there was considerable action but no apparent change in positions.

sitions.

Japanese military headquarters put their casualties in the last three days at 500 and General Tsai Tingkai. Chinese commander, said he had lost 1,700 killed and wounded in the last four days. Since the outbreak of the Shanghai hostilities January 28, the general declared, the army has lost 2,200 killed and wounded and Chinese civilian casualties have totaled 5,500.

The Japanese authorities prepared

The Japanese authorities prepared a protest to the United States government on the ground that Robert Short, American airman killed Tuesday a Soochow, had been serving with the Chinese army. The Chinese made Short a national hero.

In Tokyo the government again invoked censorship to cloak the movement of Japan reinforcements to Shanghai. No details of the cabinet decision to raise the Shanghai force from 25,000 to 50,000 were published in the newspapers. In Shanghai General Tsai Ting-kai declared 60,000 additional men were being sent from Japan.

Dispatches from Manchuria, birth-place of the Sino-Japanese conflict, sald Chinese troops, rebelling against the new Manchurian govern-ment, had occupied additional ter-ritory along the Chinese Eastern railway.

The Reuters (British) News
Agency reported from Harbin that
Mah Chan-shan, Chinese general
who assisted in the formation of the
new Manchurian government under
Japanese auspices, had been assassinated.

Every available Japanese fighting man was rushed to the Kiangwan front as a heavy massing there of Chinese soldiers indicated the latter would attempt to smash the Japanese lines before the enemies reinforcements arrived.

Chinese reinforcements also were in prospect, General Pai Chung-hsi, one of the commanders of Kwangsi province, having offered to send two divisions to Shanghai, while General Feng Yu-hsiang was expected to come from his station over Shantung and Chekiang.

FRESH HOPES IMBUE DISARMAMENT MEE

Powers Reach Tentative Agreement on Draft Convention.

GENEVA, Feb. 24.—(P) — The
world disarmament conference entered
upon the second and practical stage
of its labors today with a display of
cordial harmony which inspired some
observers with hope and others with
skepticism.

Germany joined France. Great Britain, the United States and other great powers in accepting the draft convention of the preliminary disarmament commission as a "general framework" of the discussion to which the separated descriptions

of the discussion to which the separate delegations may offer their own proposals in the form of "modifications, additions or omissions."

Maxim Litvinoff, Russian foreign commissar, also spoke favorably for this scheme of procedure, but asked that the conference first pronounce upon a soviet project for general and total disarmament. The soviet proposal will be presented by Litvinoff tomorrow morning. If rejected—as expected—the conference then will act upon the proposal of Sir John Simon, British foreign secretary, for making the draft convention the basis of the conference's work.

FROM SUPPLY BILL

Abolition of 29 Political Jobs and Four Assay Offices Recommended.

BY HERBERT LITTLE.

WASHINGTON, Feb. 24.—(UP)
The house democratic economic campaign today threatened political patronage as it brought a \$22,000,000 clash in one supply bill.

In reporting the reduced \$1,059,-598,563 treasury-postoffice appropriation bill, the house committee recommended 29 political jobs in the customs bureau now filled by republicans and four western treasury assay offices be abolished.

Abolition of the customs positions, which consist of 15 appraisers, seven comptrollers and seven surveyors, will result in a net saving of \$153,-500 in salaries. Their duties will be taken over by men already on the government pay roll. Most of the positions paid \$5,000 or over, the comptroller and surveyor in New York city each receiving \$9,000. New York alone of all the ports is allowed to retain an appraiser.

From one to three positions are

to retain an appraiser.

From one to three positions are abolished in each of the following ports: New York. Philadelphia, Boston, San Francisco, New Orleans, Baltimore, Chicago, Buffalo, Detroit, Tampa, Cleveland, Cincinnati, St. Louis, Portland, Me.; Portland, Ore.;

The four assay offices to be abolished are at Boise, Idaho; Salt Lake City, Helena, Mont., and Carson, Nev. Salaries and expenses saved will be \$24,390. and Pittsburgh.

will be \$24,390.

These items constituted a mere fraction of the \$22,677,342 which the committee cut off the budget bureau's estimates. They are, however, regarded as especially significant because their removal may have an important effect on local political organizations, built up to some extent through the friendships brought by job appointments.

COCA-COLA GRANTED ABATEMENT IN TAX

The internal revenue bureau in Washington announced Wednesday it had wiped off the books a tax assessed against the Coca-Cola syndicate. An overassessment of income taxes in 1925 was made against the concern. The abatement order for \$45,050 to the syndicate merely wipes off the books an amount assessed but never collected. The abatement was ordered because the taxes had been assessed on a deficiency summarily levied, but on a deficiency summarily levied, but later found not to have been justified.

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up stubborn coughs due to colds. It takes but a moment to prepare, costs little, and saves money, but it gives real relief even for those dreaded coughs that follow severe cold epidemics.

From any druggist, get 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing.

Pinex is a highly concentrated compound of Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs and bronchial irritations. Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or moncy refunded.

FRIENDLY COUNSEL BY CAROLINE CHATFIELD

Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

DEAR MISS CHATFIELD:

My husband is a hard worker and never misses a day from his job. But every year it seems we have less and less. We have gone down hill steadily for the last five or six years. He has worked for the same concern for 20 years and knows every department of the work. He is well liked and often complimented, so I don't think he is at fault. Yet in spite of the fair, talk the heads of the concern actually take men off the street and put them in the good jobs. These men know nothing of the business but they are given preference over my husband who knows all about it. It is not practical to look for another job. When a man has spent his best years in one position and is no longer young he cannot get another job. Although he doesn't say much about it. I fear he is beginning to lose heart. What can I do? Nothing, I guess. We have three children and I am beginning to fret about their education. I have tried to think up ways and means of encouraging my husband but so far I have thought of nothing. Our future is dark. Have you anything to suggest?

M. L. C.

This letter makes one think of the Mr. Adams in Booth Tarkington's "Alice Adams." Every-body that read this letter will suffer with you. Here are some suggestions, not all of them pleasant, but possibly helpful in that they sting. Sometimes we have to be stung into action.

First of all, remember this: That no firm is in business for anything but results, results that translate themselves into money. No matter how pleasant and personable an employe may be, if he cannot produce the business, he will necessarily be superseded by someone that can. Brutal as it may sound, a wife's word is not conclusive evidence that a man is either competent or efficient. Her word that he is a hard worker and a faithful one may be accepted but her impressions of his value to his employers are not necessarily correct ones.

not necessarily correct ones.

If untrained men and younger men are being given positions of priority over your fusband, you may be reasonably sure that it is because the heads of the firm are not satisfied that he can fill those positions.

One of the tragic sights in this life is the man who feels himself entitled to love and marriage and home and children, undertakes the responsibilities involved in these, and finds himself incapable of supporting them. It must be a crushing blow to his pride. The things that he laid hands on, because he saw in them his heart's desire, once they are grasped, become the very things that humiliate his pride and crush his spirit. One sees such men on every hand. One pities them, and yearns over them, and longs to help them. The outsider's hands are tied. There is nothing the outsider can do, that wouldn't be resented. But the wife—she holds the key to the situation in her hand, if indeed she sees the tragedy in its true light and has the courage and the grace to deal with it.

hand, if indeed she sees the tragedy in its true light and has the courage and the grace to deal with it.

The unforgivable sin in America is the failure to make money. Mortifying as is the admission, the truth is that a man's success or failure is measured by the money he makes. Who are the big men, so-called, in your city? Alas! They are the men that have the big bank accounts, and, barring some striking exceptions, the public is indifferent to the manner in which the bank account was built up. Money is power in America. The neighbors and friends respect his power. Money is privilege in America and men and women want privilege for themselves and their children. I wonder if it won't be different after this depression? I wonder if we Americans won't come to regard true worth and character as better assets than large bank accounts?

dress. Shirred into a deep tight cuff over which they fall with graceful softness, sleeves like this are immensely for softness, sleeves like this are immensed by flattering. The flared skirt is emphasized by pointed seaming, and the jabot collar edged with sheer lace gives that new wideness through the shoulders which is so desirable. It's a charming bridge, informal dinner, or hostess frock. D-68 is designed in sizes 16, 18, 34, 36, 38, 40, 42, 44, 46 and 48.

Size 36 requires 3 7-8 yards of 39-inch material, and 5-8 yard of lace.

Chiffin, flat crepe, or satin would be the fabrics best suited to this

I will tell you how character is built, too, and where. It is built in the homes where the children learn early the lessons of self-denial and self-sacrifice; where they learn that money doesn't grow on trees and that the things that money buys are not the best things, after all. I'll tell you how true education is attained, to lit is in the homes where the children learn early that "wisdom is more to be desired than great riches," learn, too, that the wealth of the world won't buy wisdom for the individual, no matter how much it may expose him to wisdom.

So, dear woman, cheer up. Your husband has a job. He is young enough to learn to do it better. You have wit enough and discretion enough to know that your encouragement and your faith and your backing are worth more to his ultimate success than any other influence in the office or in the home. This is the time for you to make your contribution to his life's work and this is the time for you to keep a stout heart.

WOMEN who find themselves in a painful condition due to a run-down state of health should give Cardui a fair trial, for a reasonable length of time, as did Mrs. E. G. Hodnett, 1101 Hazel St., Texarkana, Texas, who writes: "I was anxious to build myself up so I could enjoy and take interest in my home. I had suffered with soreness and a constant pain in my side. My mother told me she thought I should try Cardui. Soon after I began taking it I noticed an improvement, so I kept on until I had taken three bottles. By this time I was feeling so much better, the pain and soreness were gone."

Mrs. Louis Dugger entertained at a theater party yesterday in compliment to Mrs. Bowen, and Mrs. William Ogden entertains at one table of bridge at her home on West Pace's road Friday aftrnoon in honor of Mrs. Bowen.

In view of the fact that West had opened the bidding after South's original pass, the Penalty Double of five spades by East cannot be criticized. The bid smacks very much of the nature of accepting a penalty loss rather than permitting the making of a game. However, West's hand does not promise to be very productive in tricks against an adverse contract, but West probably thought that a contract to take 11 tricks by the opponents was rather ambitious and and felt sure six diamonds could not be made. In the play, the King of diamonds was opened and trumped by South and the Knave of spades was played in order to coax West to play an honor if he had one. He played the nine and East won with the Queen and returned a club which South won and led a spade which was taken by the Ace and East's last spade was made Of course, the contract was made without difficulty, as South's and the Class.

JIMMY LONDOS

Packed House Sees Mat Champ Beat O'Shocker Here.

By Jimmy Jones.

Jim Londos, the "Little Hercules" of modern Greece, was too skillful for hig Pat O'Shocker and threw the redheaded Irishman in two consecutive falls before a packed house last night at the Atlanta auditorium. The crowd was estimated as exceed-ing 5,000 persons and was even larger than that which saw Londos beat Jen-nings recently.

o'Shocker entered the ring wearing

a bright green robe, symbolic of his ancestry, and in exactly 47 minutes, 27 seconds, they carried Pat out through the ropes, knocked cold from the impact of Londos' famous "floating elbow," preceded by a double back body drop.

enter spring training with the world champions.

Parham received a wire yesterday from Branch Rickey, of St. Louis, ordering him to report to the Cards at once.

Parham, who attended Georgia Tech, got his baseball start with the Atlanta Crackers in 1928, and was immediately sold to Brooklym. He thinks the Cards will give him a good chance. He had a good year in the Eastern league last year, hitting .327, and is in excellent shape.

It appears that the basketball coaches might learn something from the Chinese, who are making a great five-man defense in the Shanghai battle.

And it might be well to straighten out this business of time. is perfectly apparent that the Celestials are ahead of us rather than later so far as time is concerned. Instead of it being 14 hours later in Shanghai than here, I am convinced that is just that much earlier. If they start fighting when we are going to bed it means they are having a very early breakfast, Earlier than ours.

The New York Times, in an effort to clarify the situation, writes:

At noon today it will be 1 o'clock Friday morning in Shanghai. There is 13 hours difference of time between New York and the littoral of China.

The International Day Line is on the 180th Meridian in the Pacific, west of the Hawaiian Island. Thus was Londos' second entrance to Atlanta in 1932. He was the same old Jim, fast as greased lightning and slippery as an eel. And when it came to a test of strength, the Greek manhandled his bulkier rival like two stevedores bouncing a bale of cotton around.

Joe Jacobs, who manages the world's champion Max Schmeling, is keeping very quiet, waiting for the Dempsey come-back to blow itself out as it inevitably must do. One can't blame Dempsey. In fact one must admire his smartness in making money. But he is pretty sure not to make a come-back officet left to Carners fight a way along the making money. It was known that he and athletic officials had disagreed over his letic officials had disagreed over his countries. This is a plaint which the Dempsey people have been raising for years. It is a very curious thing. In the Tunney-sulars. Dempsey fight at Chicago, which the former won by a wide Britton, end coach, will come up at a later date. Colonel Paul B. Now this was a natural thing to do. There is no way to prove that Tunney was knocked out. He declared that he was simply waiting for the count, which could not begin until Dempsey retired. And yet to this day the Dempsey people make much of it. If Dempsey was not smart enough to retire he should bear the brunt of the criticism.

It is very probable that Dempsey is laughing up his sleeve as he packs them in. More power to him. But it is peculiar to find the Dempsey fans still viewing him as the champion. I wonder if they have read about his refusal to fight Tunney a

KENTUCKY-TENNESSEE WAR.

It is true that Tennessee, the pioneer road builder in the south, has 2,000 less miles of paved road than Kentucky. But yeu see, it was this way.

Kentucky officials came over to Tennessee to learn how roads were built. After they left it was discovered that something had happened to Tennessee's road money. It was all gone.

And as soon as they got home the Kentuckians started building roads. And appointing more colonels. Which may explain the disparity. They need more roads. They have to keep those colonels on the move to prevent traffic congestion.

BERNIE, THE PHILOSOPHER.

Comes a letter from Bernie Bierman, the coach who left Tulane for Minnesota. Bernie is the same, calm philosopher he was at Tulane. He writes that he is becoming used to the snow and ice, will always miss the south, but is nevertheless glad to be back with his alma mater.

"I do not know much about things here," he concludes. "We will have a team (not championship) and have a schedule to play."

Which might be a great answer for other coaches to make. We will have a team and a schedule to play." Bierman never

Cheers of the crowd echoed through the capitol when Lieutenant Governor Albert B. Chandler, presiding over a joint session of the legislature which the Manassa Mauler addressed informally, said, "He'll be fighting for Kentucky from now on."

"I consider this a great honor," said Jack simply, smiling as he received the blue-ribboned, gold-scaled parchment from Governor Laffoon. "I hope I'll never do anything to lower the dignity of this office."

The former champion drew a larger "gate" than turned out to hear four democratic presidential prospects at previous joint sessions and he appeared quite at ease among the lawmakers.

Lieutenant Governor Chandler introduced Dempsey as "perhaps the greatest fighter in the history of the American people.

Tenn Feb 24—(P)—

James G. Driver, committee on boxing and also representative for the south on the committee arranging for Olympic tryouts, said today that individual champions in the sixth Southern conference boxing tournament will be urged to enter the national collegiate Olympic tryouts at Penn State College on April 8 and 9.

The 92 contestants representing 18 southern colleges and universities were beginning to arrive tonight, and to-

the other half at night.

Again on Friday the 28 second round matches will be evenly divided between afternoon and night periods. Saturday the fourteenth semi-final bouts will be held in the afternoon and the seven title bouts at night.

Mr. Driver said that popularity of boxing in the south, which has resulted in each of the competitors in the tournament here already having come through a strenuous elimination seferies, makes him believe that the conference title winners should have an excellent chance in the tryouts at Penn State, where four men in each weight class are to be selected to go into the final contest for the American Olympic team.

Graig Wood, of Deal, N. J., slipped into third place to win \$200, with 211 strokes.

The sharpshooter event was a two-ball foursome with selective drives on a handicap basis and the winners had a gross of 49-43-92 with a handicap of 28 which made their net score 64.

Second honors in the field of 25 teams went to J. M. Studebaker and Joseph Deloreinzi, both of South Bend, Ind., who with their handicap of 30 had a net of 66.

Grass Track Seen For Arlington Park

CHICAGO, Feb. 24.—(P)—Older horses racing at Arlington park next summer may have a nice turf course on which to gallop.

Steeplechase races have been omitted from the Arlington program for next season, and Christopher J. Fitzgerald, presiding steward, has suggested that a mile and a sixteenth turf course be laid out in the infield, for older horses.

Flashing over the smooth strand like a blurred blue streak, Campbell clipped 8.235 miles an hour from his own previous record of 245.733 miles an hour. Some 10.000 spectators watched the long, fish-shaped Bluebird bore through a strong northeast wind, carrying its driver over the necessary two runs faster than man ever before has traveled on the ground. His first run southward over the 12-mile course averaged the meteoric speed of 267.459 miles an hour, and the second run

PERFECT CONDITION.

Despite the wind, visibility and beach conditions were perfect. A warm sun beamed down upon the low-slung, 24-foot car, and Campbell had no difficulty in discerning his course.

He was delighted with the performance of his car, but expressed confi-

dence that on a calm day he could average 260 miles an hour. He said he might make further attempts for

new records at all distances tomorrow, if the beach remains in good shape,
After his first exhuberation had passed, Campbell, rubbing his blistered hands on his white overalls, told reporters he actually was disappointed at the record.

DISAPPOINTED!

"I am greatly disappointed at the record," he said. "A powerful wind was against me. Going south the motor was turning 3,750 revolutions per minute, but on the north run the best I could get out of her was 3,400. After finishing my run the officials advised to the segret running excite the tide.

Today will see the vanguard of arrivals for the annual Southern conference basketball tournament trickling into the city and Atlanta taking on a festive aspect on the rve of the biggest basketball event south of the Mason and Dixon line.

Things start steaming tomorrow when the first round gets under way at the Atlanta auditorium with the spectators getting first-hand news of what is transpiring through a brand new system of amplifiers just installed.

Several teams already are headed this way, Kentucky's Wildcats having left yesterday. The runner-ups of last year's meet play Tulane in the first round. There is a bit of human interest in this game as the coach of the Tulane team was a teammate of Coach Adolph Rupp, of the Wildcats, when they played for Kansas University.

Wallace Linquist, professional at the Candler Park Municipal course, will be host in another of the regular semi-monthly pro-amateur golf tournaments this afternoon on the Black Rock Country Club course. The meet was changed from Candler to Black Rock because of the shortness of the municipal links.

THE BABE BOWS TO A PUTTING STREAK If the time ever comes when the game of golf is changed in any of its essentials, the first to go will be the tremendous importance of the putt. There are those who say defiantly that the putt isn't a golf shot, but Bobby Jones and some others say the fundamentals of a good stroke begin with the sound putting style. At any rate, there is enough con-

troversy over the relative importance of the putt for any oustanding instances to be given publicity. The most recent sporting celebrity who felt the paralyzing effect of an opponent's putting was Babe Ruth, kingpin of the other summer frenzy, baseball. There may be some who do not know that the Babe is one of the real experts of the royal and ancient game. One curious thing about Ruth's golf game is that at the finish of his swing he holds his club and takes the same position as he does when ending one of his bleacher clouts on the diamond. He looks as if he were ready to dash off the tee to first base. Ruth is one of the best left-handed golfers in the country. Wedge Before Ball Is Kicked.

By H. J. Stegeman,

Member Rules Committee.

The change in the kick-off rule is interesting in that it opens up to everyone before the beginning of the football season a store of possibilities. I am sure that there will be more ideas suggested for plays on the kick-off than have been brought out in a long time.

long time.

Several people have already jumped at conclusions about what will happen with the new kick-off. I am certain that none of the ludricous events predicted will come to pass. Coaches to-

dicted will come to pass. Coaches today are too conservative to risk any
loss of ground on any play that is
not relatively certain.

The new rule provides first for the
zoning of five defensive men, all of
whom must stay within 15 yards of
the line from which the ball is kicked. The ball may be put in play by
a drop-kick, punt, place-kick or a
"bootleg punt." This last named kick
was a new development during the
last season, a kick in which the holder of the ball held the ball in his
hands some distance above the ground
and another player kicked it from out
of his hands. This kick was not a
dirop-kick or punt or place-kick, but
was allowed last year because no one
knew what it was.

was allowed last year because no one knew what it was.

"BOOTLEG PUNTS."

According to the definition of a punt, the ball had to be kicked by the man who dropped it. This kick will this year be allowed and will be defined as a punt, so that no goal can be scored from it.

The zoning of the five defensive players was enacted to break up a

These hough of their momentum to prevent such severe collision.

ABOUT THE WEDGE.

This will still enable teams to use the wedge methods of returning the kick-off, but will prevent the wedge from forming before the ball is kicked as was being done last year. This should remove an element of danger.

he must have shown something that was left to draw out big crowds through more than 50 starts.

It must be remembered also that it takes two to make a fight. If one of the entries starts holding and clutching there can't be a contest—not over a short route. Anyone who will come to Dempsey and start swinging will at least get all the action he wants.

"How good will Pepper Martin be this spring and summer?" asks a reader. The impetus from last October should carry him quite a way. No ball player who had all the stuff Martin showed last fail against the Athletics can be close to a flop—even though he may bump into an occasional slump through overtrying.

White Sox Leave For Spring Camp

CHICAGO, Feb. 24.—(P)—Headed by a new president and a new manager, the Chicago White Sox left today for Mineral Wells, Texas, the first stop on the training schedule. The new president of the club is J. Louis Corhiskey, who succeeded to the position after the death of his father, Charles A. Comiskey, the "Old Roman," last October. The younger tomiskey has obtained new talent by trade and purchase, and is just as determined as his father was, to bring another American league championship to Chicago.

The new manager is Lew Fonseca, who came to the Sox in 1930 in a trade which sent Willie Kamm to Cleveland. He played in the infield and outfield last season, and after Donie Bush gave up the job of trying to win with the club, was appointed manager.

The training season will be divided into two parts. The first, at Mineral Wells, will be for the purpose of get-tile for the past three years, and is

LINER QUINTET

Terrapins Expected To Be Handled by Jack Faber.

COLLEGE PARK, Md., Feb. 24.—
Head Coach H. Burton Shipley, of
the University of Maryland's conference basketball team, is ill and may
not be able to make the trip with his
team to Atlanta for the 1932 tourney.
Shipley has been in bed ever since
his return from the trip to North
Carolina the past week-end, and Jack
Faber, his assistant and freshman
mentor, may have to handle the Old
Liners in the title engagements.
Faber was in charge of the Maryland team last night when it defeated
Johns Hopkins, 38 to 24, to make its
record for the season 15 wins against
three losses. Only one game was dropped in the last 16 after two defeats
at the outset, one quertime and the

ped in the last 16 after two defeats at the outset, one overtime and the other by 1 point.

Maryland has not determined whether it will take more than eight men to Atlanta when it leaves for the Georgia metropolis tomorrow afternoon. It has been definitely decided that the following will make the jannt:

Ed Ronkin and Shorty Chalmers forwards; Jack Norris, center, and Bozie Berger and Charlie May, the five regulars who figured in the 1931 triumph, and Spencer Chase, forward; Rufus Vincent, center, and Bucky Buscher, guard, from last year's fresh-

Business Is Slow

"Chick" Roos took a well-deserved afternoon off yesterday from his duties in the Atlanta baseball office and played himself a round of golf.

No new signed contracts came in yesterday and consequently the only news is that Jack Sheehan, manager of the Columbus (Southeastern league) Foxes, will be over today for a conference on players.

"Chick" Roos took a well-deserved with also possible that Bob Snyder, a sophomore, who plays either guard or, forward, may be included. Willow Wright, a highly-capable but he was kept off the squad so much by scholastic work that he has not had time to work into the system of play.

Bob Wilson, forward, and Frenchy Cohen, forward or guard, who were with the squad at Atlanta last

Cohen, forward or guard, who were with the squad at Atlanta last year, will miss the trip this time.

Maryland's team is stronger, especially in reserve strength, than it was when it gained the title last March.

NEW RECORD.

Southern Football Officials' Association, who is here for the conference basketball tournament, announced last night that there would be a meeting of coaches and officials at the Athletic Club sometime Sunday to interpret the new changes in the rule.

ST. PETERSBURG, Fla., Feb. 24. (4)—Dave Hackney, Lowell (Mass.) to professional, set a record for the Pasadena course today with a round of 34.32—66 for the second 18 holes of medal play in the \$1.500 St. Patern.

THE BEST BET WITH THE YOUNGER SET

This "younger generation"! What a lotta dirt they do dig up on them; "drinking, etc." But suppose they DO do a lot of drinking. Suppose they get the habit, at 10, 2 and 4 o'clock. Can you blame them? Don't their elders do it, too? And what of it! Dr. Pepper is a good habit to get. No harm in it ... only health, happiness and fun ... why shun?

BY JOHN L. COOLEY.

NEW YORK, Feb. 24.—(P)—Stocks took a distinct upward slant today and although they closed under the top, due to late selling, there was a comfortable margin of net gains.

The small turnover somewhat dim-The small turnover somewhat dimmed the performance, but from the technical viewpoint the list acted well. At last night's close it had lost about half of the last advance and the prompt appearance of support, after a slight setback at the opening, gave encouragement. Sales totaled 1,085,640 shares, or some 200,000 under Tuesday's volume.

with a few exceptions, net improvement in principal issues ranged from a major fraction to 2 points.

National Surety, which deferred divided action, was one of the weak apots. Worthington Pump preferred B and Radio preferred A were others.

United States Steel, American Telephone, American Can, General Electric, and Southern Pacific, registered 1 to 2 point gains.

Speculative circles could hardly in-

Speculative circles could hardly ig-ore the healthy appearance of United States government securities, especially the return of the Fourth Liberty and the treasury 4 per cent issue to par. Several factors are held responsible for the rather smoothly running advance in this group, one of them being forecasts of easier money.

Best levels of the day were reached in the late trading when covering was accelerated by the advances in the grain and stock markets. March adwanced to 6.90 and October to 7.45 Britain and the orient are using American cotton at a much higher rate than a year ago the United States at approximately the same rate, with Europe lagging behind. Great Britain used approximately 125,000 bales at approximately 125,000 bales in January compared with 80,000 in the same month last year, and the orient's takings of 218,000 bales were learly 100 per cent larger than a year ago.

FOOD PRODUCTS—The grocery trade in 1931 was less affected by general conditions than many other lines, says R. G. Dun & Co. in a special survey. If was helped considerably by the fact that since 1929 luxuries have constituted a small percentage of sales, most of the interchandise now handled consisting of the market will establish a slow upward tread.

Best levels of the day were reached in the late trading when covering was accelerated by the advances in the grain and stock markets. NEW YORK, Feb. 24.—Barish expectations were disappointed by the stern opposition which today's market set up against an extension of yesterday's late selling movement. Constructive forces on the other hand derived no little encouragement from appearance of such resistance at levels ble significant support point, approximately 5.91 30 per cent under last, week's highs.

Evidence is not wanting, however, that the market is deriving inspiration for its favorable action from sunder encouraging extended the support of the day on a volume of only slightly over 1.000,000 shares. Profit-taking just at the close brought reaction from the day's highs and seemed to indicate a likelihood of a resumption of the down trend tomorrow. It is unlikely that the averages will exceed on this rally the highs of yesterable action from sunder encouraging extended to confidence restoring effects of general reconstitutions on the long side.

NEW YORK, Feb. 24.—Aside from furter liquidation in March or transferring to later months due to tenders of about 22,—aside from furter ablish a slow able to get their tenders back at a full carrying charge. Market ruled firm on light southern offerings. The usual Wednesday reports from spot centers mentioned good buying find a higher basis with a scartiy of available cotton. The firmness in the stock market and higher wheat helped the steadiness in cotton.

The opening was steady, unchanged to 7 points higher. Reports spot offerings in the southwest were higher and that the basis was firmer, probably encouraged some of the early buying.

The present decline, however, impresses us as secondary in character and is unlikely to carry through to new lows. It is very probable that after some further correction the market will establish a slow upward trend.

Liverpool Cotton.

Liverpool

FENNER, BEANE & UNGERLEIDER, CHICAGO, Feb. 24.—Again our market was disposed to pay very little attention to extremely encouraging news from abroad. Liverpool and Baires being sharply higher than due before our market opened and seaboard had reports of good overnight acceptances of whigh offered for export. Broomhall attributed Liverpool's strength to a much broader demand for both wheat and flour from the confinent sand unfavorable crop reports from Russia, Poland and Caechestlour from the confinent sand unfavorable to this season of year for Canadian and Australian, grains. We adhere to belief that foreign demand will be sustaised and that this demand will furnish the motive for a further advance.

NEW YORK, Feb. 24.—Hedge selling which was so much in evidence vesterday has the result of accumulation of cotton over the holidays was conspicuous by its absence today. There was also an increase in the trade price fixing orders on the basis of last night's close and other orders were in the market slightly below that level. As a consequence the market remained quiet and steady. Broadly speaking the market is going through the same process at the 7-cent level for May that it went through at the 6-cent level, namely, meeting cotton on any material advance above this level and meeting trade price fixing orders on any break below it.

All Conference Tourney Entries Are Expected in Tonight.

Today will see the vanguard of arrivals for the annual Southern conference basketball tournament trickling into the city and Atlanta taking on a festive aspect on the rve of the biggest basketball event south of the Mason and Dixon line.

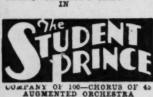

Things start steaming tomorrow when the first round gets under way at the Atlanta auditorium with the spectators getting first-hand news of what is transpiring through a brand new system of amplifiers just in-stalled.

Several teams already are headed this way, Kentucky's Wildcats having left yesterday. The runner-ups of last year's meet play Tulane in the first round. There is a bit of human interest in this game as the coach of the Tulane team was a teammate of Coach Adolph Rupp, of the Wildcats, when they played for Kanasa University.

NEW YORK, Feb. 24.—(49)—Government bonds of the United States and Great Britain today proved strong buying magnets in the loans market, and a number of them moved to new high levels for the year.

Corporate domestic issues, however, continued their uncertain trend of yesterday. Only in a few spots was there even fairly active trading. The averages sagged fractionally and sales for the day totaled \$10,783,000. Strengthened belief that the Glass-Steagall credit expansion bill will rejuvenate federal loans continued to bring investors into this list.

Highlights of Wall Street

BY CHARLES W. STORM. Editor, the News Service of Wall Street.

NEW YORK, Feb. 24.—Rumors that an important banking group is taking a constructive position in the stock market, and had accumulated \$100,000,000 of stocks, accompanied a stronger and higher market today.

The rebound in stock quotations was particularly gratifying after the reaction of the previous session. Pivotal stocks advanced from one to three points despite a flood of unfavorable announcements in the form of dividend reductions and omissions.

The fact that the market moved up-

The fact that the market moved upward in the face of discouraging news for shareholders indicated the news for shareholders indicated the truth of reports that important people in the financial district were accu-

mulating shares.

Higher prices for wheat and cotton contributed to the optimistic feeling. Some short selling began to appear toward the close of trading but offerings were well taken.

MORGAN GROUP BULLISH.

MORGAN GROUP BULLISH.

It was reported that the so-called Morgan group was taking a constructive position in the market and that stocks of companies with which that banking house is identified are likely to be prominent in the upward movement expected to follow the completion of accumulation now under way. Prominent among the so-called Morgan stocks are American Can, J. I. Case, Johns-Manville, Montgomery Ward and United States Steel.

STRONG BOND MARKET. Importance was attached to the United States government issues which advanced despite the expectation that the government will offer from \$1,000,000,000 to \$1,500,000,000

Disposition through one source will result in more orderly selling of the securities and relieve the bond market of unfavorable competitive selling.

Centralized selling also will enable institutions whose assets are being sold to obtain a better price than could be found in the open market. MARKET'S HIGH SPOTS.

Strength and activity of American Woolen preferred furnished one of the high spots in the day's business. This issue advanced more than 3 points.

Local traction issues also attract-

Local traction issues also attracted attention because of their strength, based on expectation of further progress on the unification plan.

Auburn Auto recovered part of its loss of the previous session and rumors were current that it would go into an automobile merger involving three other companies.

Increased dealings in industrial rayon were accompanied by a rumor that William C. Durant had entered the market and was using that issue as a vehicle.

BRITAIN TO SEEK STANDARD PRICE LEVEL FOR WHEAT

LONDON. Feb. 24.—(P)—The government today revealed a project to guarantee wheat growers in the British Isles a standard price of 10 shillings per hundredweight as a part of its general 10 per cent tariff policy.

The plan was contained in a wheat

The plan was contained in a wheat quota bill placed on its first reading in parliament yesterday and made public today.

(Exactly what price the quota bill would yield to wheat growers in the British Isles depends on a variety of factors. At the present rate of exchange, however, the price would be about \$1.03 1-4 a bushel, March futures sold today on the Liverpool exchange at 57 1-4 cents a bushel. These figures are reckoned with an hundredweight at 112 pounds and a bushel at 60 pounds.)

hundredweight at 112 pounds and a bushel at 60 pounds.)

The announced purpose of the measure was to bring back to wheat cultivation approximately 14,000,000 acres abandoned or devoted to other purposes since the World War.

This objective would be attained by fixing the annual domestic wheat output at 27,000,000 hundredweights (50,400,000 bushels). To guard against wheat growing on unsuitable.

against wheat growing on unsuitable ground, the measure stipulated that if the domestic supply exceeded 27,000,000 hundredweights the payments to growers would be reduced proportionately.

NEW YORK, Feb. 24.—(P)—The Curb Market swung into the upward portion of its narrow trading are in continued sluggish trading today.

The list developed a firm tone, along with the big board. The turnover was 140,000 shares, 30,000 less than yesterday's.

Recent weakness of the issues of Aluminum Co. of America was accounted for by announcement of a reduction to 75 cents from \$1.50 in the quarterly dividend on the preferred issue.

Some of the motors developed a better tone. Ford of Canada "A" sold up a point, and Stutz gained 3-4. Cord corporation was an active feature, advancing a small fraction.

Oils also stiffened. Gulf and Indian. closed unchanged.

In the utilities, Electric Bond & Share rose 3-8 of a point. BY CLAUDE A. JAGGER.

NEW DIVORCE LAWS

MADRID. Feb. 24.—(P)—The national assembly tonight approved the final article of the new divorce law. the first ever enacted in Spain, and it will become effective after formal reading of the entire measure and publication in the official gazette. It permits divorce by mutual con-sent and for non-support by the hus-band, and also provides for imprison-ment of either party for not more than 10 years for physical cruelty, deser-

With dog-like devotion the Alalus youth clung to Tarzan. The ape-man had mastered the meager sign language of his protege, giving them a means of communication sufficient for all their needs. And while these two roamed the strange land hemmed in by the Greta Thorn Forest, and Tarzan sought for an avenue of escape, Miranda and little Uhha, daughter of Khamis, the witch doctor, wandered along the forest's outer edge as the Spaniard sought a westward trail leading to the sea coast. **ANNOUNCEMENTS** AUTOMOTIVE SERVICE.

The Alalus youth, gaining confidence as he became familiar with his new weapons, grew more inde-pendent. The result was that ape-man and boy these occasions Tarzan came upon a strange sight. Following the scent spoor of Bara, the deer, it was suddenly crossed by that of one of the great female Alali. That probably meant that another would attempt to rob him of his prey. The savage instinct of the jungle-beast sprang up in the naked ape-man; and his snarling lip curled.

was no longer the polisherd Lord Greystroke of London, but a primordial hunting-brute about to be robbed of its quarry. Taking to the trees, the ape-man moved rapidly in the direction of the Alalus woman. Before he came in sight of her a nostrils. It was the scent of man, yet so unfamiliar that Tarzan's attention was immediately arrested. It was very faint, too, and yet somehow he knew it was close. Then ahead of him, he heard voiceslow, musical voices that came faintly to his ears.

There was something in the pitch and quality o these voices that suggested much excitement. Now Tarzan went more carefully, Bara the deer all but and much commotion. Then he came upon a large plain stretching away to the distant hills. And in the foreground, not a hundred yards from him, he looked upon a sight that might well have cauced him to doubt the testimony of his own eyes, a scene whose only familiar figure was a giant Alalus

"Why do you think that?" asked Farmer Brown.
"Because I know just how smart Robber the Rat is," replied Farmer Brown's Boy. "He is an outcast and hasn't a friend in the world outside his relatives, but he is smart. I have no use for Robber the Rat, but I sometimes have to admire his smartness. Just think how hard we have tried to get rid of those Rats' and all the time they just kept increasing in numbers. I suspect that old Robber just laughed at us. He was smarter

THE RATS ARE MISSED.

By Thornton W. Burgess.

When folks are missed alash how sad If missing them makes neighbors glad.

—Old Mother Nature.

There is nothing more sad that ran think of than to be so lacking in friends that folks are made glad by one's absence rather than one's presence. It is rather deadful not to be wanted even as a neighbor. But Bob ber the Rat doesn't appear to mind this at all. He has no friends, He and his family are quite sufficient unto the meet'ves.

"Because Robber is smart enough them wants no friends, He and his family are quite sufficient unto themselves.

"I haven't seen a Rat about here for more than a week. I wonder what has become of them," said Farmer Brown's Boy.

"I haven't seen a Rat about here for selfore them some of our neighbors before long that they are overtune with Rats. And those Rats will be same Rats that were in this barn. Robber decided that his new neighbors while same Rats that were in this barn. Robber decided that his new neighbors were too dangerous and that if they were going to stay he and his tribe were too dangerous and that if they were too dangerous and that if they were going to stay he and his tribe were too dangerous and that if they were going to stay he and his tribe were hardly hidden by the faint duting of powder she gare them, and the proposed them.
